

Who We Are

Our goal is to educate all ages about mosquitoes and to protect public and community health through reducing mosquitoes and the diseases they carry.

Educational Opportunities

- Classroom presentations
 - Mosquito life cycle, biology, diseases, habitat, and more
 - Fits the Utah K-12 SEEd Standards
- Field trips to SLCMAD
- Seasonal employment for high school students; internships
- Collaborate with us
- Tabling/outreach events

MOSQUITOES

For All Ages!

Connect with us to schedule an educational presentation, field trip to our facility, and more!

More Info

Tours & Tabling Events

- Bring your students or colleagues to visit our facility.
- Learn about Integrated Mosquito Management and our operations.
- See our fish hatchery and insectary.
- We love being a part of outreach events!

Presentations

- We can come to you!
- If you/your class have specific mosquito-topic interests, we can work with you to “customize” the presentations.
- Presentations can fit into your class time.
- We can bring live mosquitoes!

In-Progress Projects

- Youth/community garden
 - We started a community garden! If your class would like to help in the care, maintenance, planting, and/or learning reach out!
- Native pollinator habitat
 - We received ~400 native plants from the UT Pollinator Habitat Program! Join us as we develop this space at our facility and learn with us.
- Develop curricula on native plants and insects, natural observation activities, gardening skills, and more!
